CAREER OBJECTIVE

Motivated and detail-oriented aspiring software professional seeking an opportunity to apply my technical skills, problem-solving abilities, and passion for technology in a challenging role while contributing to the growth of the organization and continuously developing my skills.

TECHNICAL SKILLS

Languages: Java, Python, SQL

Frontend: JavaScript, React JS, HTML, CSS

Backend: Spring Boot, Spring Security, REST APIs

Tools: Git, GitHub, VS Code, Eclipse, Jupyter, Cursor, Copilot

AI & Gen AI: Generative AI, ChatGPT, Claude, LLMs

WORK EXPERIENCE

Full Stack Developer Intern — AI Variant, Bengaluru

June 2026 – Sept 2026

Skills: JavaScript, React JS, Java, Spring, Gen AI

- Developed full-stack web application features using modern web technologies.
- Built and integrated **REST APIs** for frontend–backend communication.
- Fixed and tested **15+ bugs**, improving application stability.
- Implemented **backend services, business logic, and database operations** to support application functionality.
- Integrated **AI technologies and AI-powered APIs** into application workflows to improve automation.

Developer Intern — Future Interns

July 2025 – Aug 2025

- Led a team of interns, coordinating tasks and ensuring project milestones were met.
- **Integrated AI-based features** including recommendation logic and automation workflows.
- **Improved application performance by 25%** through React component optimization and efficient API integration.
- **Tested and debugged application features**, improving reliability and performance.

PROJECTS

Servi-Connect Web Application [\(Live Demo\)](#)

Technologies: React.js, Java, Spring Boot, Spring Security, MySQL, REST APIs

- Designed and deployed a full-stack platform to **connect customers with service providers**.
- Engineered **service discovery, user interaction, and management workflows** to streamline service requests.
- **Built an end-to-end booking workflow** covering service selection, professional assignment, scheduling, status tracking, completion, and reviews.
- Integrated **AI-powered capabilities** to enhance automation and user experience.

EDUCATION

Bachelor of Technology — Malla Reddy University, Hyderabad

June 2026

CGPA: 8.1

Intermediate — Alphonse Junior College, Karimnagar

April 2022

Percentage: 89%

SSC — Johnson Global High School, Khammam

March 2020

CGPA: 10.0

CERTIFICATIONS & ACHIEVEMENTS

- Top 4 in College Hackathon.
- Letter of Recommendation for Full Stack Web Developer Internship.
- Developing Front-End Apps with React — IBM, Coursera.
- Technical Lead and Co-Host in College Coding Events.
